SOFT GOODS

Current soft goods inventory includes:

- Main curtain (light green with pattern)
- Back curtain (black velour)
- 5 Sets of Legs (10 total) each measuring 20' x 8'
- 5 Black Velour Border each measuring 48' by 96" high
- Cyclorama 48' x 20'

ORCHESTRA PIT

The Harbourfront Theatre does not have a dedicated orchestra pit. House seats can be removed (which reduces the available number of seats for sale) on stage right to accommodate small orchestra sections. Please contact the Technical Director regarding this.

BACKSTAGE & LOADING DOCK

Backstage areas include the stage door, loading dock, service hallway, access to the dressing rooms and upstairs access to the kitchen and green room. Entrance to the backstage area is either via the stage door (secured during events), side hallway (keypad entry) or off the back of the stage.

Loading Dock

Truck level loading is available through a standard roll door measuring 8' x 8'

Up Stage Left Loading Door

Opens onto the stage left side measuring 10' x 10'

Stage Right Roll Door

Opens onto the stage right side measuring 4' wide x 7' high

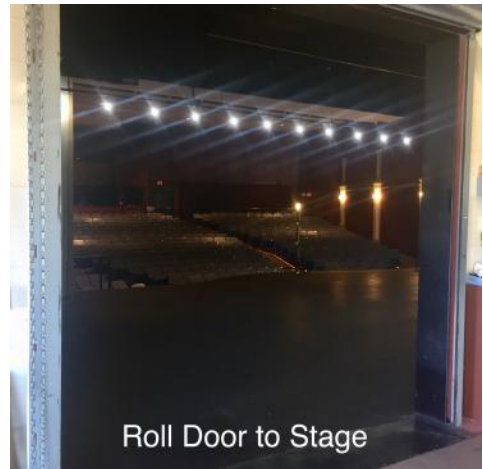

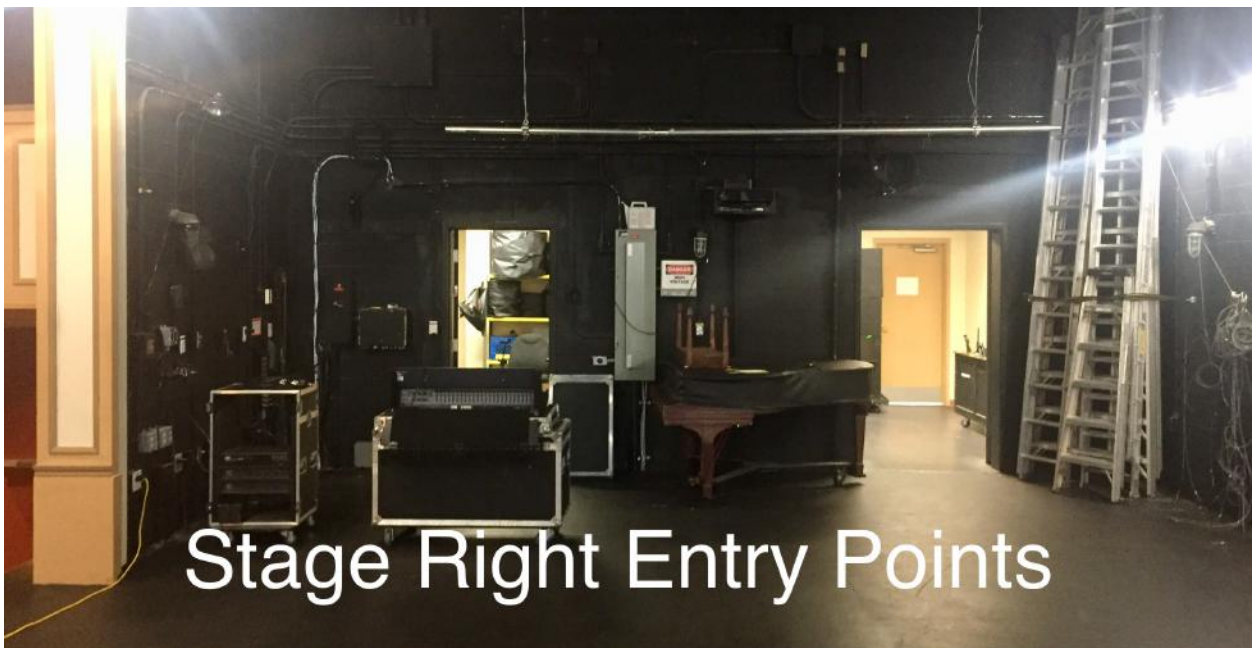

Stage Door & Loading Bay

Loading Bay to Stage

Roll Door to Stage

Stage Right Entry Points

DRESSING ROOMS

We have three (3) dressing rooms available for touring use.

All dressing rooms have:

- A. Lockable doors
- B. Public Wi-Fi access

- F. Access to electrical outlets
- G. Program sound from the production booth (each dressing room has an independent volume control to turn this feed on or off)

Dressing Room # 1

- a. The largest dressing room measuring 18' x 18'
- b. Features two (2) showers, (2) sinks, and (2) toilets
- c. Accommodates 14 people seated at mirror stations

Dressing Room # 2

- a. Medium size dressing room measuring 10' x 16'
- b. Features (1) shower, (1) sink and (1) toilet
- c. Accommodates 7 people seated at mirror stations

Dressing Room # 3

- d. The smallest dressing room measuring 9' x 7'
- e. Features (1) shower, (1) sink and (1) toilet
- f. Accommodates 3 people seated at mirror stations

GREEN ROOM

Located on the upper level backstage, the green room is available for touring use. It measures 29' x 17' and includes access to kitchen and laundry facilities as well as Wi-Fi access.

KITCHEN /LAUNDRY FACILITIES

Located upstairs backstage, the kitchen and laundry areas are available for touring use. The kitchen can be used to prepare basic meals or to provide warming and cold storage.

Please note... We do not have any in house catering facilities. Contact the theatre staff for information on outside catering services.

The kitchen features a standard fridge and stove as well as other regular amenities such as coffee maker, kettle, microwave and utensils. The kitchen also boasts a dining room table and chairs.

The laundry facilities include a basic washer and dryer as well as ironing board, iron and clothes steamer.

Assorted towels (hand and bath) are available for use while in the building.

 - 7 Piece Kit (with all hardware)
 - Raven Black
- Assorted stands (including keyboard, guitar and music stands)
 - X-brace keyboard stands
 - Platform keyboard stands
 - Double tier keyboard stands
 - Single guitar stands
 - Dual guitar stands
 - Guitar rack stand (holds 6)

STAGE CREW

The Harbourfront Theatre operates with an on call roster of technicians represented by I.A.T.S.E. Local 906A. The theatre will supply house and additional crew required for load-in, performance and load-out. All crew requests should be discussed with the Technical Director well in advance of your event.

There is a minimum 4 Hour Call with meal breaks scheduled at not more than 5 hour intervals. Crew show calls are 1 hour before show time and the house typically opens 30 minutes prior to show. Exceptions may be made as required.

The number of crew required and the scheduling of their time is at the discretion of the Technical Director and will be decided after preliminary discussions with the renter or the renter's representative to ensure safe, efficient procedures are in place at all times. All work on stage must comply with current safety regulations.

Harbourfront crew will consist of 1 Electrician, 1 Audio and 1 Stagehand with all other positions being extra if required. Calls are subject to change should the technical requirements for a particular production require so. Lighting, Sound, Flying and other equipment normally assigned to the stage is at the disposal of the renter but must be handled and operated under the supervision of a Harbourfront Theatre stage crew employee. There is to be no one in the theatre unless a Harbourfront Theatre representative is present.
